Sir:

In accordance with 37 CFR 1.97(b)(3), the materials set forth on the enclosed PTO/SB/08a form are brought to the attention of the Examiner. These materials were cited in an Office Action from the Japanese Patent Office in a similar Japanese patent application. That Office Action was issued on August 15, 2008.

JP1-249449 is accompanied by an English language abstract which was obtained from a commercial database.

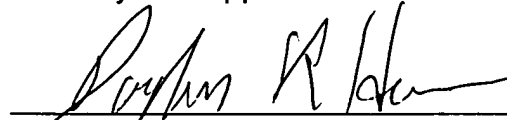

JP4-9741 does not appear to have an English language abstract or equivalent. It appears to show a roller or a cylinder that is provided with ingress and egress passages for a fluid that is supplied to one end of the cylinder or roller.

Entry of these materials into the file of the subject U.S. patent application, and their consideration by the Examiner, is respectfully requested.

Respectfully submitted,

FELGENHAUER, Wolfgang Robert Josef et al.
